13. Messages to your teacher
14. If you forget your password
15. Signing out
16. If something goes wrong
17. Questions you might have

1. How to sign in

- 1 Open the website your teacher gave you.

- 2 Type your **username**.
- 3 Type your **password**.
- 4 Press **Sign in**.

The screenshot shows a mobile app interface for 'TOP GOAL 3 Smart Shift'. At the top is a purple header with a logo and the text 'TOP GOAL 3 Smart Shift'. Below this is a white card with the title 'Sign in'. Under the title, it says 'Use the username you were given, not an email address.' There are two input fields: 'Username' and 'Password'. The 'Password' field contains the text 'DemoGuide2026!' and has a small blue icon of an eye with a slash through it at the end. Below the input fields is a purple button labeled 'Sign in'. At the bottom of the card, there is a link that says 'Forgotten your password? [Send me a reset link](#). If your account has no e-mail address, ask your teacher to reset it for you.'

The sign-in screen.

Big letters in your username are fine.

Amal and amal both work. But your

password

must be exactly right — every big letter matters.

Can't see what you typed?

Press the little eye at the end of the password box. It shows your password so you can check it. Press it again to hide it.

2. Your first time

The first time you sign in, you choose your own password.

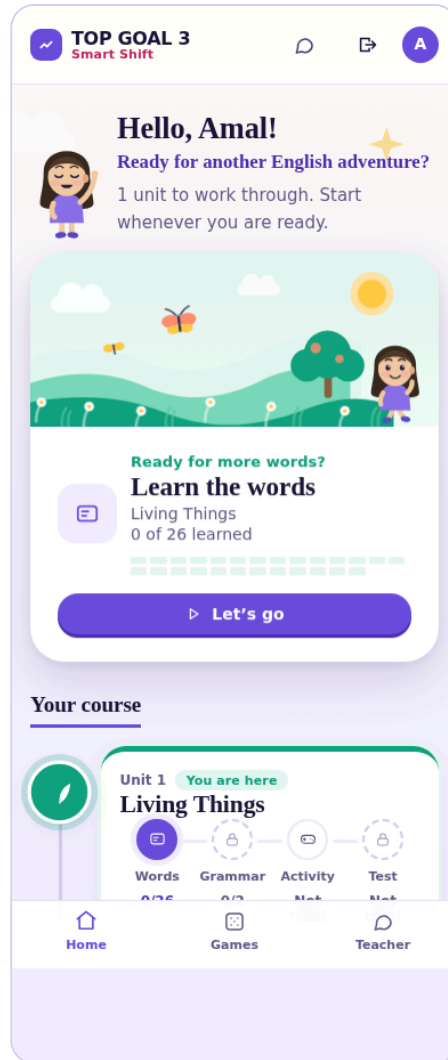

- 1 Type the password your teacher gave you.
- 2 Think of a new one, and type it twice.
- 3 Press the button to save it.
- 4 Sign in again with your new password.

Your new password needs 8 letters or more.

Pick something you will remember, and do not tell anyone — not even a friend.

3. Your home page

This is where you start. It says hello, and shows you what to do next.

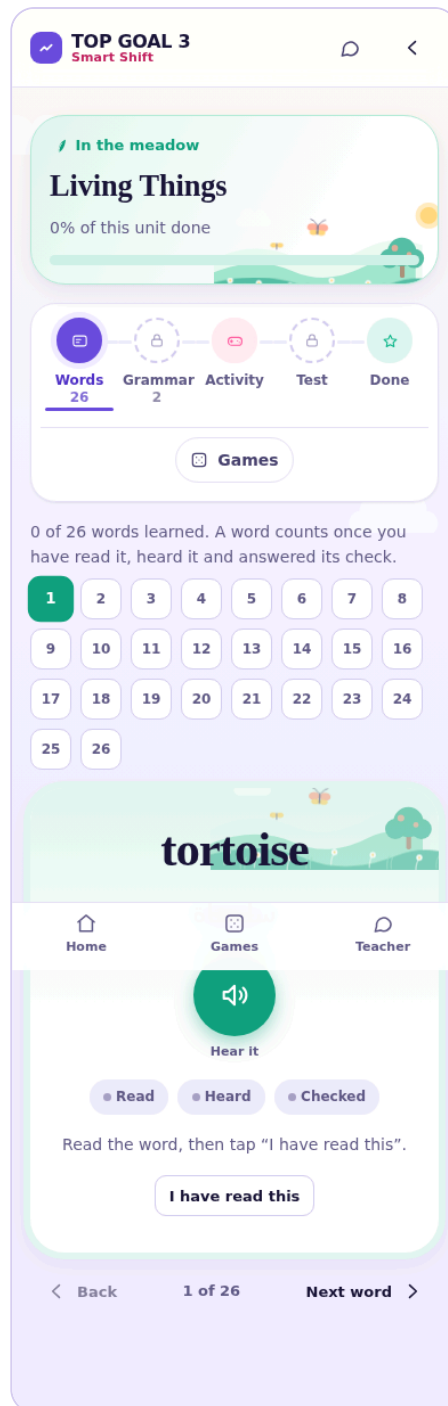

Your home page. The big button takes you to the next thing.

At the bottom of the screen there are three buttons:

Button	What it does
Home	Back to this page.
Games	Games to play.
Teacher	Messages to your teacher.

4. Choosing a unit

Under **Your course** you will see your units. **You are here** shows the one you are working on now.

Inside a unit. The steps go in order.

Every unit has four steps, and you do them in order:

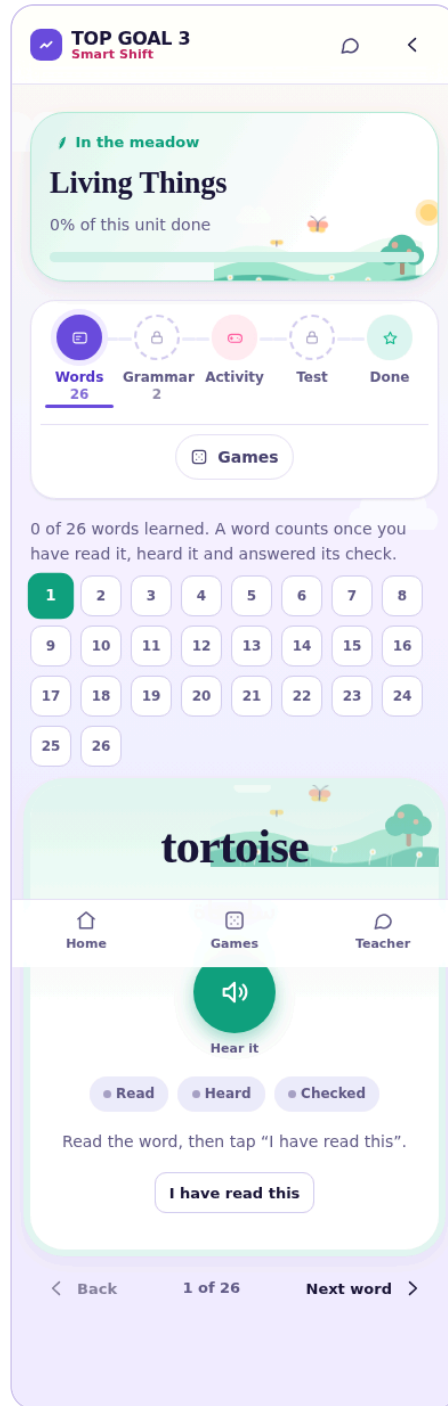

- 1 **Words** — learn the new words.
- 2 **Grammar** — read how the words go together.
- 3 **Activity** — practise.
- 4 **Test** — show what you know.

A step with a little lock on it is not ready yet.

Finish the step before it, and the lock opens. This is so you learn the words before you are asked questions about them.

5. Words

You see one word at a time: the English word, and what it means in Arabic.

One word at a time.

- 1 Read the English word.
- 2 Read what it means.
- 3 Listen to it if you can.
- 4 Go to the next word.

6. Listening to a word

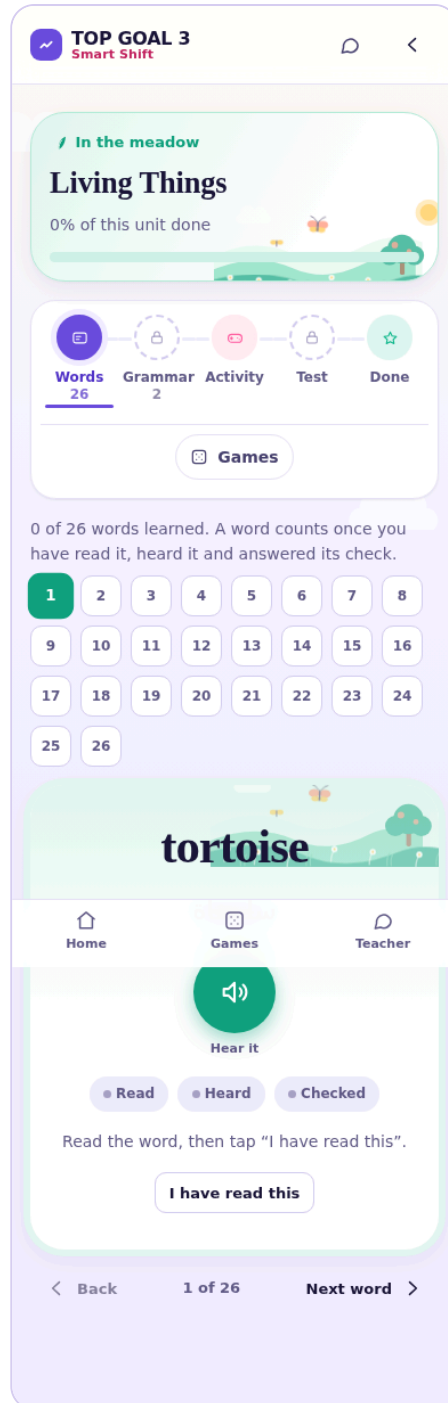

Press the **sound** button to hear the word.

No sound?

Check your device is not on silent, and turn the volume up. If the button says it cannot play, that is not your fault — the word just does not have a recording yet. You can still learn it.

7. Grammar

Grammar pages show you how English works, with examples. Some have a picture from your book.

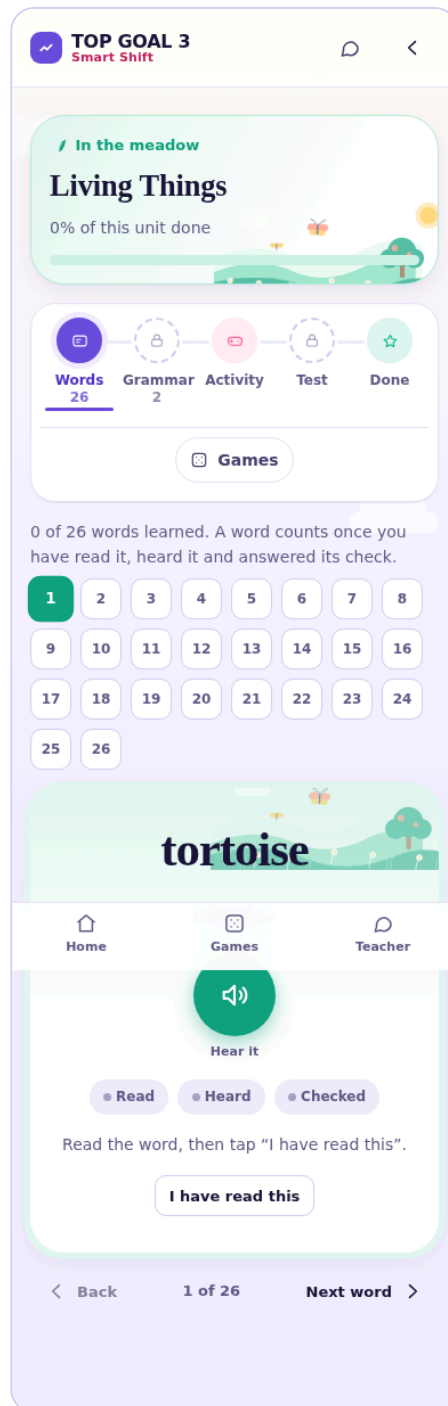

A grammar page.

Read it carefully. The activity questions come from what is here.

8. Activities

Activities are practice. You answer questions about the words and the grammar you have just learnt.

An activity question.

There are different kinds — choose the right answer, say if a sentence is true or false, put words in order, match things together.

Getting one wrong is fine.

That is what practice is for. Read why, and try the next one.

9. The unit test

The test comes last, after you have finished the other steps.

- 1 Find somewhere quiet.
- 2 Read each question carefully.
- 3 Answer all of them.
- 4 Send it when you are ready.

The test is not practice.

Your answers are kept and your teacher can see them. You may not have many tries, so finish the other steps first.

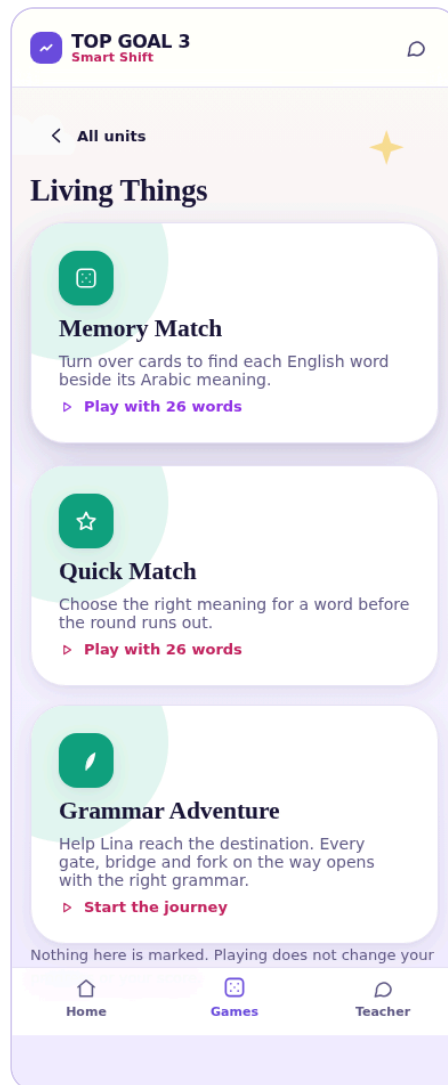

10. How you are doing

Your home page shows how far you have gone — how many words you have learnt, and which steps are done. It fills up as you work.

Your teacher can see this too, so she knows when to help you.

11. Games

Press **Games** at the bottom, then choose a unit.

Three games to play.

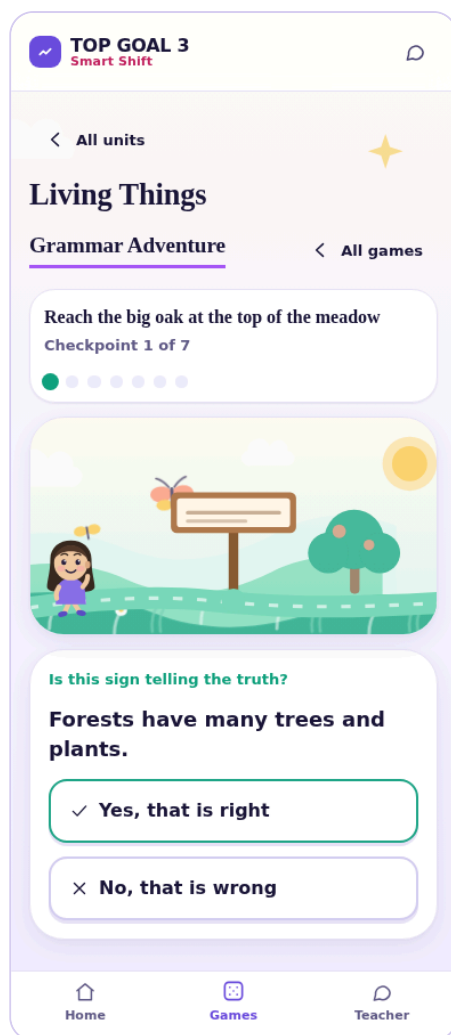

Game	What you do
Memory Match	Turn over cards to find each English word next to its Arabic meaning.
Quick Match	Choose the right meaning before the round runs out.
Grammar Adventure	Help Lina walk to the end of the path.

Games do not count.

Nothing you do in a game changes your progress or your score. Play as many times as you like — they are for fun and for practice.

12. Grammar Adventure

Lina is walking to somewhere — the big oak at the top of the meadow, or a bridge, or the market. On the way there are gates and signs. Each one opens when you answer a grammar question.

Lina on the path. Answer the question and she walks on.

- 1 Read where Lina is going.
- 2 Read the question at the bottom.
- 3 Choose your answer.
- 4 Watch Lina move on, and keep going to the end.

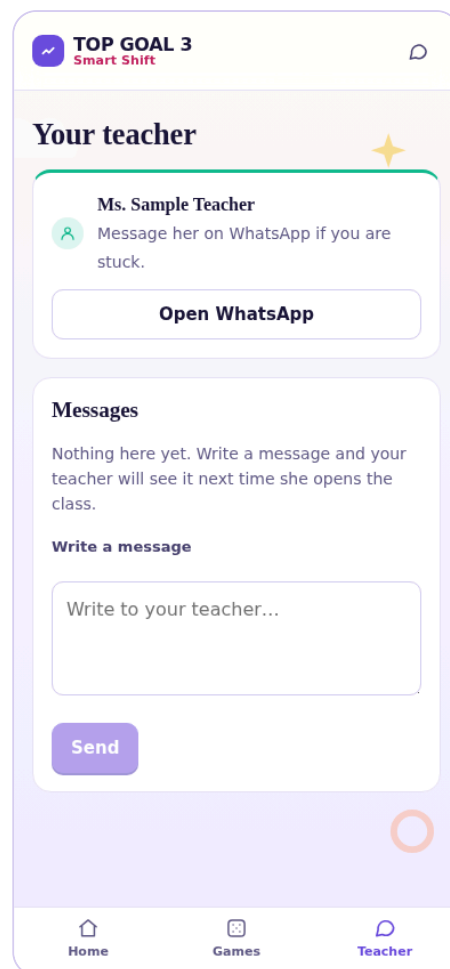

The dots at the top show how many checkpoints there are and how far you have come.

If you cannot find Grammar Adventure,

your teacher has not added enough grammar questions to that unit yet. Try another unit, or ask her.

13. Messages to your teacher

Press **Teacher** at the bottom of the screen.

Write to your teacher here.

- 1 Press **Teacher**.
- 2 Write your message in the box.
- 3 Send it.

Your teacher will see it the next time she opens her class. A little number on the speech bubble means she has written back to you.

If your teacher has added her WhatsApp number, you will also see an **Open WhatsApp** button here. If you do not see one, she has not added a number — write her a message instead.

14. If you forget your password

Ask your teacher. She can give you a new one.

You will then be asked to choose your own password again, the same way you did the first time.

Never tell anyone your password

— not your friend, not your sister. If someone finds out, ask your teacher for a new one.

15. Signing out

Press the **sign out** button at the top of the screen when you have finished, especially on a tablet other girls use.

If you stop for a long time, a box appears.

It asks if you are still there and counts down. Press

Stay signed in

and nothing is lost. If you do not press it, you are signed out to keep your account safe. Just sign in again.

16. If something goes wrong

It says my username or password is wrong.

Check your password carefully — big and small letters matter. Big letters in your *username* do not. Still stuck? Ask your teacher.

I just changed my password and it signed me out.

That is normal. Sign in again with your **new** password.

A step has a lock on it.

Finish the step before it first. Words come before grammar, grammar before activities, activities before the test.

My unit has disappeared.

Your teacher may have hidden it while she is working on it. It will come back. Ask her if you are not sure.

The sound will not play.

Turn the volume up and check silent mode is off. If it still will not play, that word has no recording yet — it is not your fault, and you can still learn the word.

The page is stuck.

Refresh it. If it is still stuck, sign out and sign in again.

17. Questions you might have

Do the games change my marks?

No. Games never change your progress or your score.

Can I do a unit again?

Yes. You can go back over the words and grammar whenever you like.

Can other girls see my work?

No. Only you and your teacher can see how you are doing.

Can I use my phone?

Yes. It works on a phone, a tablet and a computer.

Do I have to finish a unit in one go?

No. Your work is saved as you go. Stop whenever you need to and come back.
